The organ committee was assembled from the St Margaret's community by the Rev. Peter W. Mayer, Rector, and then Senior Warden Paul O'Donnell, with input from Director of Music Jim Douglas. Committee members were selected for their knowledge and love of music and the church organ, and their connections to various groups within St Margaret's, primarily the choirs, the Vestry and Day School, and for their ability to relate the decisions of the committee to those groups and the wider parish. Each member also brought a relevant background that provided invaluable perspective on worship and liturgical music. Additionally, Hope Stinson and Gary Kirkeby, who are trained church musicians and St. Margaret's parishioners, along with Jim Weekley, were asked to provide their input on final specifications of the new instrument.
